EQUIVALENCE COMMITTEE.

The Central Advisory Education Board suggested that the maintenance of a proper standard of teaching and examination could be secured in newly constituted Universities and, wherever possible, in the case of old Universities undergoing reconstruction by the exercise by the Governor-General of the powers of a Visitor, but that the advice tendered should *not* be obligatory as in the case of the Dacca, Lucknow and Rangoon Universities. The Government of India while concurring with the suggestion, did not recommend any change in the law regarding recently constituted Universities but expressed their desire that as far as possible a certain degree of uniformity in the standards of University examinations throughout India should be maintained.

It has been suggested that in the case of the older Universities which did not undergo reconstruction and where therefore the Visitor would not exercise the power the University might appoint from time to time an independent board of experts on which it would be represented.

The Government of India having addressed the Government of Bengal on the subject, the latter Government referred the

question to the University and the Senate appointed the following Committee to consider and report on the subject :—

Sir Nilratan Sircar, Kt., M.A., M.D., D.C.L., LL.D.
 Principal G. C. Bose, M.A., M.R.A.S.

GOVERNMENT GRANT COMMITTEE.

The following Committee was constituted to report on the distribution of the Imperial Grant to Private Colleges in Bengal during the year 1921-22 :—

The Hon'ble the Vice-Chancellor.
 The Director of Public Instruction, Bengal.
 Prof. P. Brühl, D.Sc., I.S.O., F.C.S., F.G.S.
 Prof. D. R. Bhandarkar, M.A., Ph.D.

The following report of the Committee was adopted by the Syndicate held on the 14th September, 1921 :—

"We the members of the Committee appointed to advise the Syndicate regarding the distribution of the Imperial Grant of Rs. 1,29,000 for the year 1921-22 among the non-Government Colleges in this Presidency, have the honour to submit our report.

In response to Circular letter issued by the University, 25 Colleges have applied to participate in the Grant. The enclosed statement prepared in the University Office sets out the names of the Colleges that have applied for grant in each case, the object for which the grant is needed, and other details which have helped us in considering each case on its merits.

It appears from the enclosed statement that the total amount of grant applied for by the different Colleges is Rs. 4,92,212 while the amount available for distribution is Rs. 1,29,000 only. In the circumstances, we have been obliged to set aside costly claims for addition in the general accommodation or extensive improvements and to confine ourselves to the consideration of other more moderate but pressing needs, the removal of which will, in our opinion, help deserving Colleges struggling under pecuniary difficulties, to attain a higher standard of efficiency.

In judging the claims of each College and in determining its present needs, we have kept in view the condition of the College (including its financial management) as disclosed in the latest inspection report and other materials available to the Syndicate. Our recommendations may be summarised as follows :—

College.	Amount Rs.	Purposes for which grant is sanctioned.
1. Bagerhat College ...	5,000	Laboratory.
2. City College, Calcutta ...	8,000	Library and Laboratory (The College authorities may be permitted to apply this amount against expenses already incurred for these purposes, in as much as no grant was available during the war when the expenditure was incurred.
3. Daulatpur Hindu Academy ...	8,000	Laboratory.
4. Diocesan College, Calcutta ...	2,000	Laboratory.
5. Loreto House ...	2,000	Laboratory.
6. Midnapore College ...	3,000	Laboratory Equipment.
7. Ripon College, Calcutta ...	8,000	Laboratory and Library.
8. Scottish Churches College, Calcutta.	8,000	Library and Laboratory.
9. St. Paul's C. M. College, Calcutta	6,000	Laboratory.
10. South Suburban College, Bhowanipur.	8,000	Library and Laboratory.
11. Serampur College ...	8,000	Library and Laboratory.

12.	Wesleyan Mission College, Bankura.	5,000	General improvement.
13.	St. Xavier's College, Calcutta	8,000	Laboratory and Library.
14.	Vidyasagar College ...	5,000	Library and Laboratory.
15.	Carmichael Medical College, ... Belgachia.	5,000	For equipment of the laboratory. We are not unmindful that when the Imperial Grant was originally instituted, it was intended for the benefit of Arts and Science Colleges and that an application for a grant in favour of a Professional College (Law) was negatived. We are of opinion however, that the Carmichael Medical College stands on exceptional footing in regard to the Preliminary Scientific Classes
16.	Anandamohan College, Mymensingh.	10,000	Laboratory Equipment and Library.
17.	Edward College, Pabna ...	8,000	Laboratory.
18.	Rajendra College, Faridpur ...	8,000	Library.
19.	Victoria College, Comilla ...	4,000	Library and general improvement.
20.	Brajmohan College, Barisal ...	10,000	Laboratory and Library."

Dr. Kedarnath Das, C.I.E., M.D., *Convener*.

Mr. M. N. Banerjee, C.I.E., B.A., M.R.C.S.

Lt.-Col., F. A. F. Barnardo, C.I.E., C.B.E., M.D., F.R.C.S.E., I.M.S.

Indian Territorial Force Act Committee.

The Deputy Secretary to the Government of Bengal, Political Department, forwarded a copy of draft rules under the Indian Territorial Force Act, 1920, and asked for the opinion of the University thereon. The Syndicate referred the matter to a committee consisting of the following gentlemen :—

The Hon'ble the Vice-Chancellor.

The Hon'ble Sir Devaprasad Sarvadhikary, Kt., C.I.E., LL.D., M.L.A.

Mr. T. S. Sterling, M.A.

The following report of the Committee was adopted by the Senate at their meeting held on the 16th April, 1921.

The Committee resolved to make the following recommendations :

" Draft Rules, Part I, 4 (1)—

The following words should be added—

Application of the candidate should be countersigned by the Principal of his College or by the Registrar of the University.

Draft Rules, Part II, (3)—

The following words should be added—

Any such person shall thereafter be eligible to be enrolled for a period of four years only under Rule 10.

Draft Rules, Part III. 15 (2)—

In view of the long distances which students have to cover in getting to and from the parade ground, the maximum number of hours of drill seems too high.

Draft Rules, Part IV, 17—

In matters of allowances other than pay, special rates should be given to Members of the University Corps.

Draft Rules, Part V, 19—

This provision appears to be different from the general principle adopted in the Army. It is not clear whether it is intended that the Commanding Officer shall have the same powers over an officer charged with an offence as he has over men. The Rules should more clearly indicate that Members of the Corps who do not turn up for training under Rules 15 and 16 commit an offence triable by the Commanding Officer and render themselves liable to punishments under Rule 21. It seems especially doubtful whether failure to attend parades as required by Rule 16 is an offence committed "while undergoing military training." This is the most important and necessary disciplinary power and the Rules should leave no doubt as to its having been granted in an effective form *e.g.*, the penalty mentioned in Rule 21 (a) should be clearly within the Commanding Officer's *powers* for this offence.

Draft Rules, Part VI, 29, 30—

The Advisory Committee should have power both to receive and to make representations with regard to any matter affecting the Territorial Forces (including questions about status, clothing, head-quarters, allowances, rations, nomenclature) and to forward the same through the General Officer Commanding to Army Head-Quarters, through the usual channels.

It should finally be made clear that the different Universities will have distinct Corps."

Over 400 Head Masters attended the said Conference.

The Resolutions, adopted at the Conference were substantially as follows :

(i) That it is desirable that instruction in scientific and vocational subjects be provided for in Schools recognised by the University.

(ii) That in order to introduce the instruction contemplated in the first resolution, the course now prescribed by the University for the Matriculation Examination should be modified with a view to enable students to take up scientific and vocational subjects.

- (iv) Geography with special reference to India and including the rudiments of Commercial Geography.
- (v) History of England and India.

Note.—The Conference did not decide whether the examination in History should be held separately from the examination in other subjects, though various alternatives were suggested, such as, that History may be a separate subject by itself, or History may be combined with Geography, or English History may be included in the subject of English and Indian History may be included in the subject of Vernacular.

(v) That in addition to the subjects mentioned in the fourth resolution, there should be another Compulsory subject, and candidates should be required to pass an Examination in *at least one* of the following subjects :

Note.—Other subjects may be added to this list from time to time.

(vii) That the certificate granted by the University to a successful candidate should specify the subjects in which the

candidate has passed as also the subjects in which the candidate has received training.

(viii) That there should be no minimum age limit for admission to the new Matriculation Examination, but that if an age limit should be prescribed, the limit should be 14 years.

(ix) That the new Matriculation Examination should be followed by a new Intermediate Course in which adequate recognition will be given to scientific and vocational subjects.

Residence of Students.

This year the number of students in Hostels and Messes fell from 5,000 to 4,500. This decrease in the number may be traced to the Non-Co-operation movement which vitally affected the student community. The financial loss caused to the University by the boarders departing from Hostels and Messes without paying their dues amounts to about Rs. 7,000.

27

University Library.

‘During the year 1921, the Library continued, as usual, under the management of the Library Executive Committee, subject to the general control of the Syndicate.

The Reading Room remained open from 7 A.M. to 7 p.m. During the Puja Holidays it was kept open for the benefit of the Post-Graduate Students who were allowed every possible facility to utilise the Library. The total number of the students who used the Library Reading Room during the year, amounted to 19,382 as compared with 34,878 in the previous year.

The privilege of taking books on loan from the Library was enjoyed by 197 borrowers (Fellows, University Professors, Lecturers and Registered Graduates) as against 170 in 1920 and 3,650 volumes were lent during the year.

Under the Library Rules, all outstanding books were recalled in April 1921 from the borrowers and reminders for the return of books were regularly issued. The Syndicate has, however, again to regret that some of the borrowers have not conformed to the Library rules inspite of repeated reminders.

The work of cataloguing books is in progress and has been completed in the case of the following sections :—

1. Mathematics.
2. English Literature.
3. Sanskrit Literature.
4. Political Economy and Commerce (excluding Reports, Parly. Papers, etc.)

The total number of volumes (including pamphlets) purchased during the year was 1,300. Besides, 157 periodicals were received. Of these 88 were subscribed for, and the rest were presentations. Back volumes of several German periodicals which remained incomplete on account of the war, were completed during the year.

A number of books and periodicals was presented by the Department of Bureau of Education, Government of India, Simla.

A number of books in Japanese Language was presented by Mr. Madgavkar through Dr. D. R. Bhandarkar and a set of works published by Varendra Research Society was also presented to the Library during the year under review.

A valuable set of Tibetan books was procured from Tibet through the kind help of Mr. J. Van Manen.

his estate for the purpose of starting a University Mining School :—

115A, AMHERST STREET, CALCUTTA,
The 1st September, 1921.

To

THE HON'BLE SIR ASUTOSH MOOKERJEE,
Vice-Chancellor, Calcutta University.

SIR,

For some time past I have entertained a strong desire to open up facilities for instruction in Mining in this Presidency. I feel much attracted by your successful efforts to promote scientific and technical training by the establishment of the University College of Science and Technology, and I venture to approach you in the hope that my humble offer of assistance in the direction indicated will receive favourable consideration at the hands of the University authorities.

I have maintained for many years at Ikhra (near Raneegunj) a school named Basanti-Bejoy H. E. School, which has been recognised by the University as qualified to impart instruction up to the Matriculation standard. The school is very largely residential and has, I venture to think, a record of successful work to its credit. The school grounds occupy an area of nearly thirty bighas on which stand the school building and the hostel for students and teachers. Ikhra is situated in the very heart of the coal district and is an obviously suitable place for the establishment of a Mining School.

It is my desire that the University may establish a University School of Mines at Ikhra ; the beginning may be modest, but doubtless there will be considerable development before many years elapse. With this object in view, I am prepared to make over to the University in perpetuity the following properties :—

(1) One hundred bighas of land at Ikhra (Value—about Rs. 50,000).

(2) The Basanti-Bejoy H. E. School with its furniture and appurtenances to be managed and maintained by the University and to be developed into a University School of Mines.

(Value of buildings and furniture—about Rs. 75,000.)

NOTE.—I shall complete the buildings now in course of erection and put in order the existing buildings (Estimated cost—about Rs. 10,000.

(3) Rupees Ten thousand in cash for the equipment of a Laboratory suitable for Mining students.

(4) An annual grant of Rs. 1,800 charged upon the estate left by my late father, Babu Bejoy Gobinda Chatterjee, under the terms of his will.

(Capitalised value Rs. 30,000.)

The Institution should be placed by the University under the management of a Committee composed as follows :—

1. The Vice-Chancellor of the University, President, *Ex-officio*.

2-3. Two members of the Senate (elected annually).

4. One member of the Faculty of Science (elected annually).

5. One Member of the Faculty of Engineering (elected annually).

6-7. One University teacher in Geology and one University teacher in Mining (elected annually by the Council of Post-Graduate Teaching in Science).

8. One Member to represent the Department of Industries (annually nominated by the Minister in Charge).

9. Director-General of Geological Survey of India, *Ex-officio*.

10. The Head of the Institution, *Ex-officio*.

11. One representative of the staff in the General Department of the Institution (annually elected by them).

1. One representative of the staff in the Mining Department of the Institution annually elected by them).

The Hon'ble Sir Asutosh Mookerjee shall always be a Member of the Committee, if he has not otherwise a seat thereon.

There shall in addition be an Advisory Board which shall also act as a Board of Visitors. The Board shall be constituted annually by the Senate and shall include one representative of the Department of Mines of the Government of India and one person possessing intimate knowledge of the working of mines.

As soon as this offer is accepted by the Senate, I shall take the necessary steps to execute the requisite deeds in favour of the University.

Yours sincerely,

PRANKRISTA CHATTERJEE.
